11:00 - 11:15	Summary of Breakout Groups	Dolly Ledin
11:15 - 11:30	Thank you and Closing	Nancy Larson

Questions for Breakout Groups

Throughout September, we have examined some of 2020's "Elephants in the Room" in our annual meeting webinars. We've looked at the role of youth in conservation, at racial justice and equity, at today's challenges around conservation funding and policy, and we've learned about some global challenges in conservation.

1. If you were able to participate in the annual meeting webinars, are there one or two lessons or observations that really stand out for you?
2. Considering the expertise, strengths, and challenges faced by Wisconsin's Green Fire, what new or existing priorities should we emphasize in the coming year?
3. In what specific ways do you imagine Wisconsin's Green Fire being different in the future as a result of what we've learned? What aspects of WGF should we be sure to maintain?
